

# GIS School Profile

Gheras International School

We Instill Today .. You Reap Tomorrow ..

# About Us

British International School was established in 2015; since then, we have changed and grown significantly in the West bay lagoon behind the MOE&HE new building. From very small beginnings almost eight years ago, GIS has grown into one of the most well-known and most prestigious schools in Qatar, with around 300 students on role. In 2019, the school received an excellent grade from the Qatar National Schools Accreditation programme, when inspected by the country's Ministry of Education and Higher Education.

While in 2016, GIS achieved Cambridge International accreditation and the school is following Oxford International Curriculum.

# About Us

Students are taught in Key Stages from Early Years, Key Stages 1 & 2. Gheras International School is led and managed entirely by International professionals, who strive to maintain the highest standards of the current English education system, whilst also supporting the school's Arabic culture and international context. The curriculum is taught in English, and the official language of communication is English. The classes are segregated starting Year 4 between girls and boys. The average class capacity is 24 students per class. Teacher assistants are provided for classes from K to Year 3.

# Vision

Gheras school aims to bring up a new generation that is innovative, morally committed, scientifically distinguished, keeping up with the modern age, participating with the community and loving their nation.

# Mission

- 1- Provide a distinguished educational school environment for students and teachers.
- 2- effecting programs and activities to help build a good personality.
- 3- offering sustainable skills development for the school staff.
- 4- Providing a technological environment that helps students to innovate.
- 5- supporting talented and distinguished students in all fields.
- 6- Implementing the spirit of a sense of belonging through community participation.

# GIS Core Values

Our students see us as worthy role models; genuine, trustworthy, hard-working, and professional. We are accessible and patient, tolerant and fair. We exemplify a positive attitude, and we expect and facilitate success, by developing in our community the main values of the school.

We expect to prepare our students to be

Confident

Responsible

Reflective

Innovative

Engaged

Tolerant

# Message from the Principal

## Ph. D Yulotli Pervil

(Doctorate in Education and Human Development)

With great pride, I introduce myself as Gheras International School Principal. I am honoured to help lead a school with such a commitment to the essential matters of human development!

I have been dedicated to education for over twenty years, my passion lies in equipping our students with the necessary skills, knowledge and confidence to critically evaluate the practices and demands of this rapidly changing world.
